SOUTHEAST IOWA CASE MANAGEMENT

Independent Case Management, Inc. (ICM) is a social service agency that provides support to individuals who are diagnosed with brain injury, chronic mental illness, mental retardation, and developmental disabilities and who are Medicaid eligible. We also serve individuals who qualify as frail elderly, those who receive 100% county payment for services, and those who are able to privately pay for their support. ICM is a private organization that subcontracts with thirteen counties in Southeast Iowa area forming a consortium, which creates the single entity "Southeast Iowa Case Management (SICM)." Through SICM, the counties are able to combine their efforts and share resources of funding and personnel. SICM also serves 21 other counties in

Iowa through a mutual agreement with the individual county's Central Point of Coordination and Board of Supervisors.

We have a staff of about 90 employees in eight offices and serve approximately 1500 individuals. Our primary responsibility as a case manager is to the individual to act as an advocate by informing them of their rights and responsibilities as citizens, and to secure and link them to essential services that have been identified by the interdisciplinary team. We provide consumer driven programming and assist each individual to progress to increasingly independent functioning, in a setting that is less restrictive, age appropriate, and integrated into the community.

SICM is accredited by the Division of Mental Health and Disability Services to provide Case Management within the State of Iowa.
